

# AQUABELLA<sup>®</sup>

BIO-ENZYME WATER TREATMENT

**100% NATURAL WATER TREATMENT  
FOR BOTH FRESH AND WASTE WATER.**

- ◆ REMOVES AMMONIA AND NITRATES
- ◆ REDUCES BIOCHEMICAL OXYGEN DEMAND (BOD)
- ◆ BREAKS DOWN ORGANIC SOLIDS AND SLUDGE
- ◆ REMOVES PHOSPHATES, PREVENTING ALGAL BLOOM

Dynamic blend of beneficial naturally occurring microorganisms that break down and remove common contaminants from water bodies.

**REMOVES:**

**AMMONIA**

**PHOSPHATES**

**ORGANIC SOLIDS**

**NITRATES**

AquaBella treatment for vineyards rapidly reduces Biochemical Oxygen Demand (BOD) in vineyard wastewater ponds, avoiding fines.

AquaBella treatment incorporates both aerobic and anaerobic bacteria to remove ammonia, nitrates, nitrites as well as phosphates, helping prevent algae bloom.

AquaBella treatment for manure lagoons prevents future accumulation of sludge in manure lagoons, and rapidly breaks down and liquifies accumulated sludge materials in mature lagoons in crisis situations. Taken together, this allows farms to avoid expensive excavation costs.

**AQUABELLA APPLICATION DIRECTIONS**

| PRODUCT SIZE | TREATMENT VOLUME                   |
|--------------|------------------------------------|
| 1 Liter      | 125,000 gallons of water treated   |
| 1 Gallon     | 500,000 gallons of water treated   |
| 2.5 Gallons  | 1,250,000 gallons of water treated |
| 15 Gallons   | 7,500,000 gallons of water treated |
